Manager's Commentary

A terrible start to the year, with the market battered in turn by global turmoil and domestic political uncertainty before staging a partial recovery from 9.6% down once the latter issue concerning leadership succession was resolved. The Fund had an even worse time of it, posting the worst monthly return since November 2011 as hopes of accelerated market reforms briefly faded, with the effect that we have given the peer group a head start on the year. February started quietly as the market (and country) prepared to close down for Lunar New Year celebrations but we see reason for optimism on access with now several companies – including Vinamilk - making unexpected moves on raising limits. It seems that there is a list of conditional sectors hidden somewhere in the bowels of the Ministry of Information, and whilst we prefer the clarity that comes with transparency, we'll take comfort where we can.
